

Activity No: 18
Name of The Programme:
Installation of Environment Friendly Waste Bin

October 13, 2023
CKB Commerce College NSS Unit

Description of the Activity:

As part of the efforts to encourage eco-friendly options, on 13th of October, 2023 the CKBCC NSS Unit took an initiative to install Bio-Friendly **Bamboo Waste Bin** in the college campus. Two Bamboo cone shapes Waste bin were installed outside the class room for the convenience of the students.

The environment won't be negatively impacted by this natural substance. It's the ideal replacement for plastic since it has a less carbon footprint. Bamboo will entirely biodegrade in under a year. Our **Bamboo baskets** provide a relaxed, uncomplicated look to the college since they are handwoven from beautifully textured natural fibres.
