K. B. Commerce College
Jorhat

Method of computing per day usage of library

The entry into the library is recorded through a barcode scan. In the event that the scan is not completed, the entry is documented through manual registration.

S.No.	Academic Year	No. of users in library access (Includes Books issue/return, Library hour & Others)	No. of users in Internet access (E-Access)	Average Users per day
1.	01/06/22 To 31/05/23	9434	536	34.14

Number of Physical Users accessing the library:

S.No.	Academic Year	No. of Physical users	Average Users Per day
1	01/06/22 To 31/05/23	9434	32.31

Number of users using the library through e- access:

S.No.	Academic Year	No. of users' access through computing (Internet & e-resources)	Average Users Per day
1	01/06/22 To 31/05/23	536	1.83

The HEI is requested to calculate the teachers and students' usage library per day.

Average usage of the library by the college = Total no. of teachers & students in each day
for all working days / Total no. of working days

S.No.	Academic Year	No. of users in library access (Includes Books issue/return, Library hour & Others)	No. of users in Internet access (E-Access)	Total no. of users	Average Users Per day
1	01/06/22 To 31/05/23	9434	536	9970	34.14

Total number of teachers and students on every working day for all working days = **Physical user + Internet user = 9434 + 536 = 9970**

Total no. of working days = **292** (As per Academic Calendar) = $9970 / 292 = 34.14$
